

## PRODUCT SHOWCASE

### Samsung Launches New Wifi Enabled Range of Compact VRF Air Conditioning System

Samsung has launched large capacity Variable Refrigerant Flow (VRF) air conditioning systems in India that can be installed in just 0.5 sq metres of space in premium apartments, villas, bungalows, houses as well as commercial and retail establishments. The new side discharge VRF system—DVM S Eco—promises an extremely efficient, eco-friendly and quiet air conditioning solution and offers a specialized single outdoor unit for affordable multi-room cooling. The WiFi-enabled DVM S Eco series offers smart features such as voice control and connected home experience using SmartThings app on any smartphone.

### Gourav introduces Hilyt

Gourav Luminaries Pvt Ltd. has introduced a new range of LED lights Hilyt. Saving 86% more electricity than usual, this product range is a pivotal step towards the brand's commitment to produce environment-friendly and energy-efficient electrical solutions. Other than the energy-saving attribute, the range promises a robust design, longer life, two-years warranty and features like anti-glare diffuser, fluctuation CR and high-lumens. The pricing ranges between INR 50 to INR 15,000 depending on the watts.

### Milagrow launches India's first Air Duct Cleaning robots

Milagrow has launched two advanced industry-grade duct cleaning robots - Milagrow Hydra & Milagrow Viper. Both the robots help with cleaning accumulated dirt, dust smut, etc in rectangular or round air ducts with a diameter between 100-350mm. This will be useful for facility managers across corporates, factories, hotels, restaurants, airports, healthcare companies, etc.

The latest addition to Milagrow's product portfolio, Hydra is the world's most versatile duct cleaning robot that cleans large and medium-sized rectangular or round ducts between 250-1000 mm in size. It can also climb up to 30 degrees. It comes with an extendable telescopic cleaning arm, 3-way camera to leave no dead corners. Meanwhile, Milagrow Viper is the world's thinnest, lightest, portable, compact, powerful duct cleaner that cleans round and rectangular ducts between 100-350mm. It comes with three PA 66 nylon brushes that have long durability and spins both sides and cleans efficiently without damaging the duct. Priced at INR 1,199,000 and INR 3,99,000 respectively.

### GRAFF unveils art deco-inspired collection, 'Topaz'

GRAFF has introduced "Topaz", an art deco-inspired collection, designed by G+Design Studio, with an unmistakable hexagonal handle and spout base for the bathroom. All the elements of the Topaz collection are characterized by rhythmic aesthetics, made up of pure geometric shapes and enriched by stylistic details. The coordinated accessories define the design for a harmonic and functional environment. The Topaz faucets and fittings by GRAFF are produced with brass containing minimal nickel and lead contents and also made in compliance with drinking water regulations that comply with the most restrictive criteria for the protection of health and the environment. The Topaz Collection by GRAFF is offered in 20 finishes including Vintage Brushed Brass (VBB), a liquid epoxy finish, Gunmetal (GM), a living, transforming finish and Polished Chrome (PC), a galvanic finish.
