

Legrand India announces its experiential centre- Innoval in Ahmedabad

Mr. Sameer Kakkar, Director Sales, Legrand India along with Mr. Palash Nandy, CEO, Numeric India at the launch of Innoval Experiential Center in Ahmedabad

■ Infrastructure inaugurated their state of the art experience centre Innoval in Ahmedabad today.

Innoval will host its India group company products – Legrand, Numeric & Valrack. Globally Innoval's are present at France, Greece, Chile, Brazil, Colombia, Dubai, and made its first-time entry in the Asia Pacific region with its launch in Mumbai, India. The company is now all set to amaze the Ahmedabad market with its experiential centre launch today. Legrand India plans to have eight Innoval experiential centres by end of 2018 in India. Innoval is Legrand's global brand of product showcases. The name Innoval is a reflection of Legrand's brand value of developing ranges of innovative products (Valley of Innovation).

Sanya New Airport Benefits from Innovative Structural Analysis for 290 Steel Cylinders Used to Create Artificial Island

■ Hainan Airlines Group Hilong contracted Petroleum Marine Engineering Services (Shanghai) Co., Ltd. (Hilong) to provide engineering design and analysis for 290 steel cylinders, the safe transportation of the cylinders, and the subgrid of an annex as part of a new artificial island in Sanya, China. The transport route went from Nantong, Jiangsu to Sanya, Hainan, ranging approximately 1,285 nautical miles. Sanya Airport is designed to manage an annual throughput of around 60 million people.

Bentley software allowed Hilong to complete optioneering and engineering analysis for the largest diameter steel cylinder cofferdam in the world. The project team used SACS for the strength and stability analysis of the large, thin-walled cylinders measuring 30 meters in diameter and between 25 to 39 meters in height.

Covestro India to launch 'Made in India' sustainable products focusing on smart cities

■ Covestro, one of the world's largest polymer companies, today announced that it would be present with a range of smart and sustainable polyurethane (PU) materials for the construction, automobile, footwear, and furniture industries at Paint India 2018.

Paint India is one of the premier biennial events for the paint, coatings and adhesive industry in India. Covestro India will be present at the show with one of the largest booths (Booth no C2, Hall 1), highlighting key applications across key industries under the theme: Smart2 = Smart + Sustainability. Covestro has been a key player in India's industrial coatings and adhesive market.

GRAFF unveils its Timeless 'Bali' collection

■ GRAFF, the worldwide manufacturer of innovative faucets and shower systems, introduces its Bali Collection. The collection is based on an innovative concept of Lean Manufacturing Management, which aims to eliminate excess consumption of time, energy and materials, so that each process achieves substantial efficiency standards. Even in the casting process, and in the finishing and galvanic treatments, GRAFF uses a zero discharge system that recycles 100% of brass and paper. In line with the strong commitment to environmental sustainability, GRAFF is among some of the first companies in the world to have publicly expressed willingness to actually eliminate its impact on the environment in the near future. The whole collection can be viewed on www.graff-designs.com
