

HAVE YOU SEEN?

6. An innovative laser-cutting technique creates Lacepark from **Innovations'** memorable texture, an all-over organic pattern, modeled after exfoliating trees and available in five colorways. When cut at various depths, the silky textile surface reacts with a proprietary pigment, bonding to its non-woven substrate and revealing shades of color. innovationsusa.com

7. Crafted from walnut, plainsawn white oak, and rift and quartered white oak, and finished with a base of 60 percent vegetable oil, **Nydrée Flooring's** Pristine collection of 18 running line colors offers durability through a signature acrylic-infusion technology. nydrreeflooring.com

8. **Kanju Interiors'** new range of sculptural planters consists of six collections with original designs generated in collaboration with designers, architects, and artists—including Tuber, made from African teak. kanjuinteriors.com

9. **GRAFF's** 24-karat brushed gold is the newest in the brand's range of finish offerings, joining a roster of 11 other signature options developed to enhance both the traditional and contemporary silhouettes of the company's fixture collections. graiffaucets.com
