GET SMART

Technology and high design find the perfect balance in kitchens, but it's in bathrooms that we find some notable high-tech surprises.

> GRAFF's Ametis showerhead by designer Davide Oppizzi is highly sculptural. The showerhead is also available with an integrated chromotherapy system with RGB LED lighting within the ring. It is available in chrome, and black or white powder-coated finishes. Visit www.graff-faucets.com to find locations near you.

< GRAFF Aqua Sense rain shower features an RGB LED color-changing effect controlled by a touch-screen, and a USB port and speakers for portable music players and can be used with all GRAFF thermostatic ranges. Visit www.graff-faucets.com to find locations near you.

> Watermark Designs' new Luxury Shower System features a full-color digital touch-screen, thermostatic valve that controls up to four shower outlets, the ability to control shower lights, connection to any audio device with headphone jack, and nine programmable preset shower scenarios that allow users to set the user preferences. The LSS also tracks water usage through a Green Statistics function. Available at Everglades Design Center in Boca Raton, Wool Wholesale Plumbing Supply in Fort Lauderdale, Action Supply in Lake Worth, Designer's Plumbing and Hardware in Miami, and at Ferguson Enterprises in Boca Raton and Fort Lauderdale.
