

4 A DIM BULB—AND THAT'S A GOOD THING

A proprietary light engine enables the new WarmDim feature in Juno's Generation 3 LED Downlights Series to warm LED color temperatures when the lamps are dimmed—from 3,000K when fully illuminated to 2,000K when dimmed. The fixtures are offered in 4-, 5-, and 6-in. models for both new construction and remodeling projects, in both insulated and non-insulated ceilings. With a range of available trims. 2 MINIMALIST AND MODERN

With its minimalist design, the new Sento bath collection from Graff features clean, simple lines and a modern look. Developed in collaboration with Italian designers, Angeletti Ruzza Design, the collection's line of faucets and coordinating floor-mounted accessories embrace form and function. HUF COR PARTITIONS

OPERABLE
VERTICAL LIFT
GLASSWALL
ACCORDION

Limited only by your
imagination...Glasswall
is clearly visionary.

Hufcor's movable glass partitions allow natural light to flood an interior space while providing space flexibility. With your choice of clear tempered, full satiny translucent, etched, or custom glass, the glass wall panels can become the signature design element of your rooms and could qualify you for LEED points.

Satisfied customers are using acoustic, frameless and timber-framed glasswalls to close off store fronts, bank lobbies, training centers, banquet rooms and to create meeting rooms.

Visit our 2012 AIA Expo Booth #2942 and register to win a hybrid vehicle.
