

## Indian Modular Switch Market 2016 Share, Trend, Segmentation and Forecast to 2020

■ Modular switches are customizable, high-capacity switches that have outpaced traditional switches in terms of design, ease of installation, operational efficiency, and appearance. These switches are available at affordable prices and are equipped with advanced technologies such as Internet connectivity, USB sockets, and childproof shutters, among others. These are safer and convenient to operate as compared to conventional switches. These switches incorporate two types of components: switches, sockets, & other accessories; and mounting plates for placing the switch. Enhanced safety measures, vibrant colors, advanced technology, smooth operation, and lower costs of maintenance are the characteristics features of modular switches.

## GRAFF presents the most luxurious furniture collection for the bathroom: Dressage

■ GRAFF, the globally recognized producer of luxury faucets for the bathroom, the shower and the kitchen, ideal to satisfy every personal need, presents now their most luxurious furniture collection for the bathroom. Dressage is harmony, geometry, versatility. The furniture vanity is a carrying element in solid wood, compact and functional. The solid wood, warm and precious, is the mainstay of the collections. All elements of the water supply and water discharge are located inside, hidden from the eye. It can be combined with a washbasin in Corian® DuPont™ and solid wood and accompanied by a tray for cosmetics, a towel hook, a chest of drawers and a movable mirror.

## An app that brings your dream bathroom or kitchen to life

■ The water tap is the thing we most frequently use in our bathrooms and kitchens. The shower, which is used almost on a daily basis, comes second. That's why these water fixtures should not only be particularly durable and easy to use, but they should also be aesthetically appealing and blend harmoniously into our living environment. Do you want to see what the new tap or shower solution will look like in your home? Now you can do just that on your smartphone or tablet using the photo function on the Hansgrohe@home app.
