

**5 IMAGILUX**  
[imagiluxled.com](http://imagiluxled.com)  
 Custom-manufactured in Oregon from optical-grade acrylic sheet material, the company's ultra-thin LED panels use light transmission technology to evenly illuminate across their entire surface area without grids, etchings or light guide plates. Shown here is an installation in the Bazaar restaurant by José Andrés at the SLS South Beach hotel.

**6 SANDLER OFFICE**  
[sandleroffice.com](http://sandleroffice.com)  
 Created by Danish designer/architect Carsten Buhl, the RD chair's futuristic form is reinforced with an internal steel frame. Available in a range of fabrics, leathers or in a choice of the customer's own material.

**7 GRAFF**  
[graфф-faucets.com](http://graфф-faucets.com)  
 RGB LEDs integrated within a circular form produce the Ametis Ring's six-color chromatherapy system. Designer Davide Oppizzi recalled such concepts as the density and colors of water, the movement of waves and the brushstrokes of Japanese writing to design the stainless steel shower fixture, which features rain and waterfall settings. Available in polished chrome, architectural black and architectural white finishes.

**8 MINDO-USA**  
[mindo-usa.com](http://mindo-usa.com)  
 The outdoor Breeze armchair is crafted with a proprietary strap material that's available in various widths and colors. The aluminum frame, which features angled arms, is offered in a choice of standard hues.
