Graff Presents Solar Collection

Graff, the worldwide manufacturer of innovative faucets, introduces Solar; a new, cutting edge faucet collection. The minimal design consists of a geometrical composition of cubes, rectangles and right angles that align perfectly - both in the opening and closing position. The handles have a rectangular shape that perfectly matches the cubic shape of the body.

Solar offers a very wide range of elements for the bathroom and the shower and is available in the single-lever version as well as the three-hole option. The washbasin and bathtub faucets exist in the deck-mounted and wall mounted versions, while the washbasin and bathtub floor-mounted faucets complete the range of articles with two astonishing elements.

Solar mono components are equipped with eco-friendly aerators that save water by reducing water flow from 11 to 7 litres per minute. Together with a very functional exposed thermostatic shower, and several wall-mounted and ceiling-mounted showerheads, the Solar collection includes also the characteristic Ski shower, a wall mounted item with matching levers,

four body sprays and a distinctive "ski-like" design.

Besides the traditional polished chrome, this contemporary collection can be produced also in the matt black and matt white finishes, both obtained through a powder coating process that makes products resistant to scratches, chipping, abrasions, corrosion, fading, and other wear issues.
