

SINKS AND FAUCETS

New styles emerge in the sinks and faucets space with increased effort to create artistic designs. The combination of textures in worktops, sinks and faucets have started to matter now more than ever.

GRAFF PERFEQUE

Graff's rich experience with creating designer-based collections for the luxury market comes through in Perfeque. With coordinating kitchen and bar faucets, Perfeque offers a distinct style paired with incredible features such as twist and lock spray-head, and pull-down spray controls. Utilizing the latest manufacturing technology, this showcases a distinguished and elegant arrangement of curved elements.

ACRYSIL CARYSIL SWAN GRANITE SINK

Swan is a remarkable combination of beauty and performance. It has distinct spaces for preparation, clean-up, and wet and dry work. The back half of the platform curves, allowing more space in the sink basin, making it perfect to hold large kitchenware. The design also ensures that the dishes drying on the platform stay out of sight. Truly suited for a busy kitchen!

FRANKE MYTHOS FUSION SINK

The purity of steel meets the warmth of Fraganite bringing alive a unique fusion sink. Three elegant steel details fuse perfectly with Fraganite to create a product that uniquely combines different materials and colours. Fraganite tackles the cleaning problem associated with composite sinks. Tests have proven that when treated with Sanitized® hygiene function it reduces bacteria and microbe growth by 99%.
