GLAMOUR ROOM

Less may be more, but that doesn't mean you compromise on luxe elements. Taking that as the primary inspiration GRAFF has used designs from its MOD+ range to turn the bath into a private retreat. The shining white of the marble creates a sense of calm while the gleaming brass brings in a hint of gold and gives it that luxe touch.

OPEN UP

Walls are coming down, be it in the kitchen or the living and dining areas. It was only natural for the bath to be next. This bath concept by hansgrohe explores just that. However, when the bedroom seamlessly moves into the bath space, the fixtures have to be well designed and aesthetic. Here hansgrohe has used the Rainfinity shower. It has a concave shape and innovative wall connection that allows tilting of the head shower between 10 and 30 degrees. It is also equipped with three spray modes— PowderRain, intense PowderRain and RainStream. PRICE ₹8.82 lakh onwards
