

Grohe India

The Grohtherm Special thermostat is available for washbasins, bathtubs and showers. It features the Grohe Safety Stop with a factory setting of 38°C and an option to set the maximum temperature anywhere between 35°C and 43°C. The winged metal knobs are comfortable to use even for older people and those with reduced manual dexterity. They are highly robust and will resist attempts to forcefully override the Safety Stop setting. Other highlights include the Grohe Quick fix technology, Grohe CoolTouch and the Grohe TurboStat thermo element. Price on request

Sternhagen

Spellbinding and masterful, the Kristall faucet sees light refracting from its many facets like sun glittering on clean, natural crystal. Just as in nature no two crystals take exactly the same shape, no two pieces of this centerpiece collection are alike. Price on request

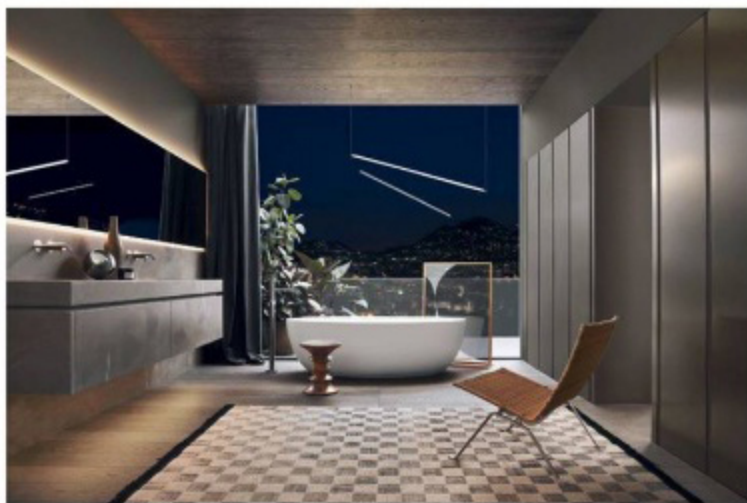

Duravit India

The new Vero Air collection is an extension of the Vero Air series of washbasins and above-counter basins, ceramic toilets and bidets and furniture. It retains the iconic rectangular character of the Vero washbasins while introducing new technical distinctions. Through the recent additions of rimless toilets, a new range of bathtubs and various pieces of furniture using C-bonded technology, Vero Air has refined its bathroom range while retaining its strong, design-focused identity. Price on request

Graff India

The Sade faucet collection provides a comprehensive range of products, both deck- and wall-mounted and with a single lever or as a widespread set, for the bathroom and shower. It is manufactured from brass with a very low nickel and lead content. It is available in polished chrome and Steelnox along with a special satin nickel finish that is patented by Graff and is 100 per cent fingerprint-resistant. Price on request

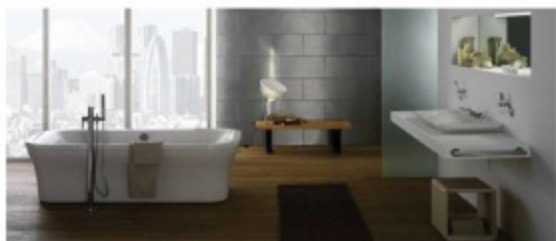

Keha Casa

Puro Collection from Milldue boasts of precious surfaces and perfect geometries. Featuring furniture and washbasins, Puro is a modular system that offers a wide variety of solutions. In the furniture, the door handles are replaced by a hand grip that can even be fitted on the sides, while wash basins are perfectly built into the surface top. The fit-in LED light underscores the geometry of the elements, and enhances the premium materials such as marble, stone and veneer. Price on request

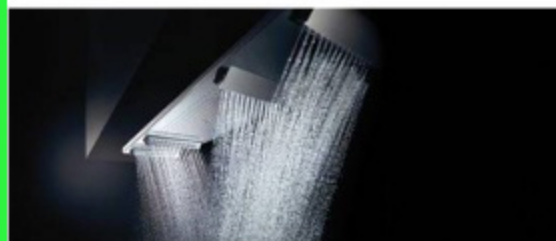

Vitra

The Sento series includes washbasins, washbasin units, WCs, tall units, mid units, mirrors and bidets. But the highlight of the range is its functional and smart solutions for storing cleaning materials. For instance, it has a multipurpose unit to house a washing machine and laundry basket. When it comes to the design, fine and rounded corners ensure safety and enable easy cleaning in small bathroom spaces. Price on request

Graff India

Sento offers 15 faucet elements and a selection of matching accessories in polished chrome, Steelnox, black and white finishes. The spout is produced in such a way that water flows from its centre, while the reduced external thickness, gives this faucet an overall appearance of extreme lightness. The faucet body covers the sink or countertop hole, therefore avoiding the need for an unsightly covering plate. Price on request

Hansgrohe India

Axor ShowerHeaven is an impressive overhead shower with a 1.2 metre long and 30 centimetre wide generous, plane surface of high-quality metal. Its four retractable "wings" and integrated ambient lighting create a new archetype in the shower. Fine silicone nozzles, evenly distributed and embedded in the four retractable "wings" of the Axor ShowerHeaven, create a spray of luscious, silky raindrops. Price on request

Parade

Vitra

Nest Trendy is the highly modular family bathroom furniture series by Pentagon Design that includes washbasins, faucets, washbasin units, tall units, accessories, mid units and mirrors. It caters to the needs and desires of every member of the family and offers wealth of features from a child step and night lights to easy-to-reach storage areas. Price on request

Samir Ceramics

Maier's Ikon single lever faucet collection redefines luxury and shakes up physics with its complex geometric lines. Available in chrome and gold finishes. ₹ 60,000 onward

Graff India

Available both in the two-handle and single-handle versions, the Finezza faucet collection presents a complete variety of deck and wall-mounted installations. The faucet's main body has been developed in a shape that relies on a unique horizontal section that is wider at the base and the top and slimmer in the middle. The collection is available in polished chrome, polished nickel, brushed nickel and olive bronze finishes. Price on request

Jayanthi Tradelinks

Developed with your skin in mind, the MicroSilk Hydrotherapy bathtub is an innovative product. Manufactured by USA-based Jason International, MicroSilk generates natural and non-invasive, tiny micro-bubbles which gently envelops the body's largest organ to relieve irritation, encourage metabolism, fight free radicals, and promote wellness. ₹ 2,95,000 onward
