

VOICE CONTROL

The all new Queo SmartTap is a stunningly designed shower system that gives you a one-of-its-kind bathing experience through full control with a smartphone app and voice commands via smart manual digital controllers like Amazon Echo and Google Assistant. Not only can this avant-garde bathing system auto-fill the bath, it also customises music. queobathrooms.com

AERODYNAMIC METALLICS

In the modern world requirements for total functionality in minimal spaces, Glass Design proudly introduce Tondo Plus, the cornerstone of their new UNIKO programme, which is a series of metal wash-stands crafted from stainless steel. With integrated towel holder and shelves, the washbasin is constructed with an innovative material consisting of glass pigments and resins, called VetroFreddo. glassdesign.it

LET IT GLOW

Estrella, which means star in Spanish, is a beautifully crafted piece of art from designer Gauri Khan's Spring '19 collection of aesthetic luminaires. An attempt to play with light through gorgeous designs, each strand, resembling the tiny light balls of the night sky, radiates gleaming elegance into the space with its glossy finish. lightsbytisva.com

SMART KID ON THE BLOCK

Toto launched its first retail-cum-technical centre in Delhi. The space is bedecked with Toto's world-class product ranges for modern day toilet spaces. Keeping in mind the sustainability practices, Toto has made a conscious effort to conserve water in all its products. The showroom also endorses a corner dedicated especially to the brand's passion and history of quality legacy. toto.com

ELEGANT CHOICES

Graff introduces its most inventive faucet collection for bathrooms. Named Luna, the range stands out for its distinctive shape and mirror-like finish, looking like a sinuous element floating ever so gently on the wall. Equipped with an aerator, the collection is crafted with powder coating process and is thus, scratch resistant. graff.com
