## SOUND EFFECT

Ventura International recently launched Akupanel, a sound absorbent and eco-friendly range of acoustic panels that helps control sound and ambient noise without sacrificing the beauty of the design. The PET polyester fibre backing used in Akupanel is made from 50% recycled plastic, which is 100% recyclable. The acoustic wood finishes make for a visual impact. **[Fluid style]**  
Graff's single-handle lavatory faucet collection Ametis, designed by Davide Oppizzi is inspired by the density of water and its colours, the movement of waves, and Japanese writing that is produced with only a stroke of a brush. [graff-designs.com](http://graff-designs.com)

## TO COMFORT YOU!

With pretty designs, styles and colours, add a breath of fresh air to your patio with Cane Boutique's new outdoor furniture pieces. The range comprises of swings, loungers, swivel chairs, café chairs, etc, made with different types of resin weaves in natural colours. [caneboutique.com](http://caneboutique.com)

## ACCOLADES FOR DESIGN

Miele machines came out with flying colours at this year's iF Product Design Awards. The G 7965 SCVi dishwasher and MasterCool II refrigeration products were awarded the iF Gold Award 2019 for their design excellence. The dishwasher's unique AutoDos dispensing system with PowerDisk was the star of the show. [miele.in](http://miele.in)
