DESIGNED TO INSPIRE

This tradition-inspired silhouette kitchen faucet by the name Duxbury from Graff, stands dignified and graceful. With a beveled neck and obtuse base, it stays true to itself while transforming the kitchen with a comfortable, casual ambience. The side spray, developed in the same glamorous style, offers even more flexibility in everyday kitchen operations. Duxbury is equipped with a revolving spout and is available in polished chrome, olive bronze and steelnox, the 100 per cent fingerprint proof patented finish.

SMOOTH TOUCH

Modern and minimal, the sensual curves and arcs of Grohe's Minta range faucet will never go out of fashion. It fits perfectly in any contemporary kitchen. You can add the ultimate in cleanliness and convenience with the easy touch model. Letting you turn the water flow ON and OFF with a touch of your arm, the Minta touch puts you in control. Choose your touch function in a cold water-version or upgrade with an under-sink grohtherm micro thermostat for perfectly controlled warm water with absolutely no danger of scalding.

CURVY AND EDGY

The stylish build of Armando Vicario kitchen faucets from Hafele, makes it synonymous with high quality and functionality; characterised by clean lines and distinctive aesthetics. The faucet comes with a polished chrome finish for a sleek silver undertone as well as a brushed chrome finish for a cooler matt undercurrent. The brushed chrome is a matt alternative to polished chrome's mirrored appearance. With a subtle blue tinge the brushed chrome finish imparts an understated sophisticated feel.
