GRAFF has introduced a comprehensive collection of faucets, tub fillers and showers- the **MOD+ Collection**. This collection offers utmost quality and innovation with elevated designs. The classic simplistic styling is irresistible, topped by polished and effortless action. The MOD+ handle covers are offered in pure marble and eighteen stunning brass finishes for unending customizable combinations. All products are equipped with thoughtfully manufactured brass bases and knurled detailing, mixed to create a cohesive focal point for the bath.

Villeroy & Boch is taking the popular bathroom collection **Me-mento** to a whole new level with **Memento 2.0**. Thanks to the innovative TitanCeram ceramic material, the range combines precise contours with extraordinary stability. With eight different washbasins, a bidet and a toilet, the complete bathroom collection adapts to any layout and opens up extensive creative scope thanks to the seven colour options.

Duravit and Sieger design present a complete bathroom range- **Viu ceramics, the XViu furniture and the matching bathtubs**. The new range covers the entire bathroom with recurrent design elements. The white ceramic cover of the push-open valve is flush with the inner basin in the open position. Fully glazed underneath, the Viu washbasins, available in five sizes as well as a handrinse basin, are also ideally suited as individual solutions.
