

WHAT'S NEW?

GRAFF has launched its sophisticated traditional collection. "Personified grace is definitely the best way to describe LAUREN. This collection is the most elegant amongst GRAFF's timeless series, as LAUREN offers a full range of three-hole articles for the washbasin, the bathtub and the shower area. The elements are both deck-mounted and wall-mounted and they are all characterized by sinuous lines and a majestic spout. The gentle curve of the faucet and the slim perfectly-appointed handles can take on a stronger look when shown in the gold-plated finish. The LAUREN collection is available in Polished Chrome, Steelinox, Polished Nickel, Olive Bronze and 24K Gold finishes.

The new Briosio bathroom furniture series by **Duravit** affords a wide range of design options. The characteristic handles and furniture feet are also available in the same color for seven of the 15 front and carcass colors. Whether glossy or matt, single-colored or with a shiny chrome handle – the Briosio series is sure to stand out, and combines well with five different ceramic series. The Briosio vanity units, tall cabinets and mirror cabinets are all available in a range of sizes and provide plenty of storage even in the smallest bathroom.
